is a truly unique service that provides stress free personal culinary services to suit your needs.

Would you like to enjoy healthy, delicious dinners in your own home, but have someone else cook?

Do you like to entertain but hate the work?

Creative Kitchens will arrange your menu, shop for groceries, prepare your meals, then either package and store them for you to enjoy at your leisure or serve and clean up afterwards.

We can prepare a dinner party, cocktail party or just your everyday meals so you don't have to. Your kitchen will be left spotlessly clean and your fridge full of delicious meals.
